EXPERIENCE

Sankalpa Technologies

Dec 2023 – May 2024

Java Developer

Bengaluru

- Developed Anakshi, a comprehensive system for sending notifications, tracking attendance, and managing profiles for schools and colleges.
- Implemented features for efficient communication between teachers, students, and administrators.
- Designed and integrated attendance tracking functionality to streamline record-keeping processes.
- Utilized technologies such as Java, Spring Framework, MySQL for robust and scalable solutions.

PERSONAL PROJECTS

Anakshi

Developed a system for notifications, attendance tracking, and profiles management for educational institutions.

- Tools & technologies used: HTML, CSS, JavaScript, Java, Spring, Spring Boot
- Implemented a notification system to send announcements, event reminders, and important updates to teachers, students, and administrators, improving communication and engagement within the educational community.
- Designed and integrated an attendance tracking feature to efficiently monitor and manage student attendance records, providing valuable insights for educators and administrators.
- Developed a profile management module to maintain detailed profiles for students, teachers, and administrative staff, facilitating seamless access to relevant information and improving administrative efficiency.
- Utilized Java, Spring Framework, and MySQL to create a robust and scalable system capable of handling the diverse needs of schools and colleges.

Foodie Express

Developed a food delivery application facilitating online food ordering and delivery.

- Tools & technologies used: HTML, CSS, JavaScript, Java, Spring, Spring Boot, MySQL
- Implemented a notification system to update users on order status, promotions, and delivery updates, enhancing user experience and engagement.
- Designed and integrated a real-time order tracking feature, allowing users to track their orders from restaurant preparation to delivery at their doorstep.
- Developed user profiles and order history management functionality, enabling users to view past orders and customize preferences for a personalized experience.

TECHNICAL SKILLS and INTERESTS

Languages: HTML | CSS | JavaScript | Java

Developer Tools: VS Code | Sublime Text | Eclipse | Git | Github | Postman

Frameworks: Spring | Spring Boot | Hibernate | JDBC | Bootstrap

Cloud/Databases: MYSQL | SQL

Soft Skills: Problem Solving | Teamwork | Active listener

Areas of Interest: Software Development | Full-Stack Development

EDUCATION

Sharnbasva University

2022

B.tech ECE

CGPA: 8.9 CGPA

Government Polytechnic Bidar

2017

Diploma

Percentage: 60.8

Vaijinath Kamthane High School Bidar

2014

SSLC

Percentage: 71.04
